PRESS RELEASE

The Croatian Migrit Group about participation in the project of constructing the Hanhikivi 1 nuclear power plant in Finland

Zagreb, 5th of August. we have received the news that the Finnish government reached a decision that the project Hankikivi 1 will be restricted to Finland's exclusive nature, which means that the project participants will be exclusively Finnish companies and that the project is aimed exclusively for Finnish market with Finnish operators as end-users of energy produced.

Migrit Group, once again stresses that we have fulfilled all the requirements for the project participation and we will continue to seek and develop investment opportunities in the European energy projects with reduced CO2 emission (non-carbon energy) which is in accordance to the EU and Croatian Energy Strategy, in addition to our corporate strategy within the group
